AFFORDABLE DIGITAL MARKETING STARTING FROM JUST **\$75**

In today's digital world, getting the most out of your advertising investment means being in front of the right audience at the right time. Invest in a digital advertising campaign, and acquire new customers today!

DIGITAL GEOFENCED DISPLAY ADVERTISING:

Our digital advertising platform enables you to create a virtual fence (geofence) around any geographical location in Calgary and the surrounding area, and choose your advertising campaign duration (start and end date). You can geofence a single community, a quadrant of Calgary, the entire city, a number of locations, or as little as a 1 kilometer radius. We will build your digital ads (big box, leaderboard, and mobile) and place them so they can be viewed on mobile, desktop, and tablet devices within your selected geofence. Clicking on your ad will navigate the user to your website.

Your digital ad campaign will be seen within your geofence on our premium network of respectable websites and app brands, which include: calgaryherald.com, nationalpost.com, globalnews.ca, mycalgary.com, cbc.ca, theglobeandmail.com, xe.com, moneysense.ca, sportsnet.ca, forbes.com, ctv.ca, financialpost.com, citynews.ca, nasdaq.com, citytv.com, tsn.ca, radio-canada.ca, 660news.com, msn.com, espn.com, cnn.com, kijiji.ca, foodnetwork.ca, allrecipes.ca, foodnetwork.ca, readersdigest.ca, hgtv.ca, tmz.com, eatingwell.com, mensfitness.com, womenshealthmag.com, answers.com, recipe.com, etonline.com, mashable.com, thechive.com, walmart.ca, autonet.ca, bestbuy.ca, expedia.ca, travelocity.ca, homeaway.ca, canada411.ca, yellowpages.ca, canpages.ca, and more.

People buy from businesses that they are familiar with. Like other forms of advertising, digital advertising creates awareness of your business. A viewable 'impression' occurs when your ad is displayed on an app or website.

Geofenced digital campaign pricing is as follows:
